ELIRA

The **ELIRA Series** represents “enlightenment” and the spirit of Nusantara harmony, bringing light and balance into the living space. Its signature geometric circular cut-out on the solid teak backrest is inspired by traditional loster ventilation, symbolizing the sun and the continuous flow of energy, allowing the room to feel both alive and breathable. Crafted from selected solid teak with a warm natural finish, ELIRA combines the strength of a legendary material with a Contemporary Tropical design—clean and defined, yet softened by rounded edges and elegant light grey cushions. More than just furniture, the ELIRA Living Set is created to celebrate togetherness, offering functional design that harmonizes modern aesthetics with the warmth of enduring tradition.
